

Study mobility at *Lille University School of Medicine*
Guide to create your pedagogical project

There are different types of incoming mobilities at *Lille University School of Medicine* – essentially 3:

- **Clinical clerkship(s) only**
- **Theoretical courses and clinical clerkship(s) combined**
- **Theoretical courses only**

Please make a **clear distinction** on your Learning Agreement between **clerkships and courses**. On the Learning Agreement, clerkships must appear as such: **“Clerkship in [discipline] - ([...] weeks)”**.

→ **Important:** For regulatory reasons, **neither our school nor Lille University Hospital are allowed to sign external documents**, apart from Erasmus+ documents.

If you are not an Erasmus student and your University needs a Learning Agreement to formalize your mobility, please kindly use our own template (Appendix I)

→ **Clinical clerkships:**

For practical reasons, clinical clerkships for international students are organized by the international office, aside from the local students'. They have a **4-to-6-week duration** (4 weeks if you are in your second or third year of medical studies). They are based on a full-time schedule (unless you are attending classes at the same time) – **no vacations are allowed**.

All disciplines*, apart from General medicine, are available to international students, depending on the departments' capacity to host students during the requested period. You can apply for a clerkship **at any time of the year**, although the holiday season (end of December/beginning of January) and the end of July through mid-August may not be

ideal periods for clerkships, as our office is closed and many medical staff members and professors are on annual leave at those times of the year.

****According to current specificities. Some changes may occur throughout the year.***

Although we do our best to assign you to the department(s) you are most interested in, places are limited and capacities are not always guaranteed, therefore you are requested to make **3 choices of discipline** for each clerkship, in your order of preference, in case we are not able to satisfy your first wish(es). For instance if you want to do 2 clerkships, please indicate 6 disciplines/departments. Please also specify the desired duration for each clerkship (4,5 or 6 weeks). When processing your application we will make arrangements to organize your clerkships according to your wishes and the hosting capacities – information related to your clerkships will be sent to you via email in due course. **No modification, regarding the discipline, duration or period, will be possible from that stage.**

A few specificities are to be noted**:

- Clerkships in the Emergency department have a 4-week duration.
- Some departments, such as the Psychiatry department, require a (very) good command of the French language (at least B2 in this specific case).
- If you are interested in a clerkship in Psychiatry, it cannot be your first or only clerkship in our institution, as this discipline requires a very good command of the French language as well as to be familiarized with the French Health system.

*****Please note this list is not exhaustive and changes can occur throughout the year.***

Important: If you are attending theoretical courses, you are allowed to attend:

- ➔ **2 clerkships** at the most if you are staying for **1 semester**,
- ➔ **3 clerkships** if you is staying for the **whole academic year**.
- ➔ Please note that **we do not assign ECTS credits to international students for their clinical clerkships as international students** do not necessarily attend their clerkships together with the French students, and the content and duration of the clerkship may differ slightly according to our incoming students'

requirements. Your home institution will be responsible for the credit recognition in accordance with the information provided on your transcript of records/clerkship transcript.

Attention: Professors and heads of departments will evaluate your performance according to our faculty's criteria and will need to fill in the evaluation form (Appendix II) at the end of your clerkship. **Please note that interns are not allowed to sign your evaluation forms and that no external documents can be signed** as specified above.

Important: For regularity reasons, we cannot host clinical interns through the Erasmus+ Traineeship programme. Clinical clerkships are considered study components, therefore you will be welcome to join through the Erasmus+ Studies programme instead.

→ Theoretical courses:

→ **Please note that changes may occur to these courses during the year or before your arrival. We will keep you informed if you are affected by this.**

International students at *Lille University School of Medicine* are welcome to attend the following theoretical courses:

MED-2 (2 nd year)			
	Discipline	Schedule	ECTS (credits)
Semester 1	Anatomy- First part	12	2
	English- First part	23	2
	Molecular, cellular and tissue bases in drug therapies	20.5	3
	Molecular and cellular bases in pathologies	34	3
	Quantitative biomedicine	17	3
	Optional course N°1*	30	3
	Medical genetics	9.5	2
	Medical information and Pix C2i (Certificate for computer and internet use) 1 st part	19	1
	Health-Society-Humanity	24.5	3
	General Semeiology	16	2
	Immune system - Basics	14	2
	Blood tissue - Basics	12	2
	Parasitology	13.5	1
	Virology	19.5	1
Semester 2	Cardio-vascular system	41.5	6
	Anatomy-Second part	22	2
	English- Second part	15	2
	Locomotor system	28.5	5
	Bacteriology	14	1
	Optional course N°2	30	2
	Hormonology-Endocrinology-Reproduction-Nutrition	55.5	7
	Immunopatology and Immunointervention	14	1
	Medical information and Pix C2i (Certificate for computer and internet use) 2 nd part	9	1
PRESAGE*	8	1	

*PRESAGE: a health simulation centre aimed at training students and health professionals through immersion in a recreated hospital environment where high and low tech mannequins take the place of patients.

*Optional courses:

Semester 1:

Virus
Civic engagement
Medical psychology
Greek
Latin
Histology of the nervous organs
Music and medicine
Neuroscience and Theatre
Introduction to scientific reasoning in medical research

Semester 2:

English
Physiological basis of the functional explorations
Proper use of Biochemistry tests
Cancer
Civic engagement
Greek
Medical innovations from biology research (32h)
Latin
Exotic and Tropical Microbiology
Music and medicine
Neuroscience and Theatre
Reproduction: histo-physiopathy and assisted reproduction

Please note this list is subject to changes

MED-3 (3rd year)

	Discipline	Schedule	ECTS (credits)
Semester 1	English- First part	10	1
	Digestive tract	33.5	6
	Respiratory tract	32.5	6
	Competence- Clinical reasoning	31	1
	Optional course N°1	30	2
	Introduction to Clinical Reasoning	24	1
	PRESAGE 1	3	1
	Kidney and Urinary tract-Male genital tract	48	7
	Skin tissue	17.5	2
Semester 2	Cardiovascular (Clinical Ens)	19.5	3
	Orthopedics-Rheumatology (Clinical Ens)	14	5
	CRC	30	1
	Immunopathology et immunointervention	16	1
	Nutrition	13	1
	Sensorineural system and Psychiatrics	50	6
	Blood tissue	13.5	1
	English- second part	10	1
	Tissue biopathology	17.5	1
	Optional course N°2*	30	3
	Genetics	10	1
	Competence- Clinical reasoning	15	1
	PRESAGE 2	4.5	1

***Optional courses:**

Semester 1:

English
Teaching in other institutions
Economic evaluation in healthcare
Latin
Greek
Music and medicine
Sport and medicine
Dissection tutorial
Student life
Medical virology

Semester 2:

English
Civic engagement
Functional and metabolic imaging
Latin
Greek
The doctor as an economic actor in the healthcare system
Military medicine
Music and medicine
Parasitology and Mycology

Please note this list is subject to changes

MED-4 (4 th year)			
	Discipline	Schedule	ECTS (credits)
Semester 1	Endocrinology-Nutrition	12	3
	Gynecology-Obstetrics	17	3
	Neurology-Neurosurgery	21	3
	Orthopedics - Rheumatology	14	3
	Critical reading of articles	24	2
	Optional course N°1*	30	0
Semester 2	Skills 3-ORAL	10	1
	Gastroenterology-Digestive Surgery	21	3
	Critical reading of articles	27	4
	Infectious Diseases-Public Health	30	4
	Pediatrics	21	3
	Pneumology-Thoracic Surgery	11	3
	Optional course N°2*	30	0
	Seminars	8.5	0

***Optional courses:**

Semester 1:

English
Oncology
Allergic diseases
Ambulatory pediatrics
Sport
Toxicology
Dissection tutorial

Semester 2:

English
Biomarkers in medicine
Correct use of medicine and personalized prescription
Plastic and reconstructive surgery
Clinical anatomy
Systemic diseases
Sport medicine
Reaction to aggression and visceral dysfunction

Please note this list is subject to changes

MED-5 (5th year)

Discipline		Schedule	ECTS (credits)
Semester 1	Internal medicine - Aging - Handicap	21.25	3
	Occupational Medicine - Legal Medicine - General Medicine	12	3
	ENT - Ophtalmology - Stomatology	12	3
	Pediatrics	24	4
	Optional course N°1 *	30	0
Semester 2	Skills	10	2
	Dermatology - Hematology	20	3
	Pain-Palliative care-Anesthesia - Acute visceral failures	19	3
	Psychiatrics - Addictology - Child psychiatrics	24	4
	Critical reading of articles	24	4
	Optional course N°2 *	30	0

***Optional courses:**

Semester 1:

English

Being a surgeon

Psychology and neurobiology

Strategy for prescribing laboratory examinations

Semester 2:

English

Antibiotic therapy

Controversies and inconsistencies in nutrition

Therapeutic patient education (60h)

General Medicine

Mother and child health

Palliative and supportive care

Imaging examinations strategy

Forensic thanatology

Please note this list is subject to changes

MED-6 (6 th year)			
	Discipline	Nombre d'heures	Crédits ECTS
	Seminars and Best of* :	39.5	0
	Anatomopathology Seminar	2	
	Seminar on the essentials of acid-base disorders	3	
	Oncology Seminar	4	
	ECG Seminar	4	
	Acute respiratory failure	3	
	Polytrauma	4	
	Toxicology	3	

The seminars and Best of in MED6 are complementary courses for students who have already taken courses in the relevant disciplines.

You may notice that ECTS credits for 4th and 5th years may seem quite low to you as compared to the ECTS credits assigned for the corresponding courses in your institution. This is because the second cycle of medical studies in France is spread **on 3 academic years instead of 2** (MED-4, MED-5, MED-6). This may result in a lower number of ECTS credits assigned for each course as compared to the corresponding course in your institution, but this does not necessarily mean that the content and efforts required to complete a course are not equivalent. As such, the number of ECTS credits assigned by your home institution in table B of your Learning Agreement may be superior to the number of credits indicated in table A in accordance with the above, which is given on an indicative basis.

You can find the full programmes for each course, in French, on the following webpages:

- 2nd year courses: <http://medecine.univ-lille.fr/med2/>
- 3rd year courses : <http://medecine.univ-lille2.fr/med3/>
- 4th year courses : <http://medecine.univ-lille2.fr/med4/>
- 5th year courses: <http://medecine.univ-lille2.fr/med5/>

Please find below the approximate academic calendar for each year of study:

	MED-2 (2 nd year)	MED-3 (3 rd year)	MED-4 (4 th year)	MED-5 (5 th year)
Fall semester	Mid-September - Mid-December	Mid-September - Mid-December	Mid-September - Mid-November	Mid-November - Mid-December
Fall semester exams	Early-November - Mid-January	Early-November - Mid-January	Mid-December - Early January	Mid-February
Spring semester	Mid-January - Late April	Mid-January - Late April	Early January - Late April	Late February - Early April

Spring semester exams	Late May - Early June	Late May - Early June	May	June
-----------------------	-----------------------	-----------------------	-----	------

Your group for EDs (Enseignements Dirigés) and your exact schedule will be given to you at your arrival in our institution.

Please note the instruction language for all courses is French, and **a minimum B1 level is requested** in French language for registration.

You can attend only **1 optional course** (Enseignements Choix Libres, "ECL") **per semester** at the most.

Some exams (please see the list below*) are divided into 2 parts. International students can opt to be evaluated on 1 part of the exam only. In the latter case however, **we are not able to assign ECTS credits to them for those exams.**

- Endocrinology - Nutrition (MED-4)
- Orthopedics - Rheumatology (MED-4)
- Public health - Infectious diseases (MED-4)
- Dermatology – Hematology (MED-5)

*Please note this list is subject to changes.

Attendance to classes is **mandatory**.

Please note that there is a second exam session during summer (August-September). This session is intended for students who did not obtain a sufficient grade to validate one or more courses during the first exam session.

You will find below

APPENDIX I: Learning Agreement template (non-Erasmus)

APPENDIX II: Clerkship evaluation sheet
